

FRONT

FEATURES

1. Micro USB Port
2. Auxiliary Port
3. On / Off Switch
4. Bluetooth Indicator

SPEAKER CONTROLS AND FUNCTIONS

- All functions and controls are done through your media device.
(To pause, play, select tracks, and control volume you must do so from your device.)

AUXILIARY-IN FUNCTION

1. With the speaker powered on, connect the included Auxiliary cable into the speakers auxiliary port and plug the other end into your phones auxiliary port.
2. The speaker will switch to "AUX IN" mode automatically from Bluetooth mode. You can now play your media as desired.
3. Disconnect the Auxiliary cable when finished.
(Note: If there is no sound while auxiliary cable is connected to bluetooth device, ensure all other bluetooth devices are not paired and repeat step one. If the problem persists replace auxiliary cable.)

LED INDICATOR INDEX	
EARBUD STATUS	LIGHT INDICATOR
Bluetooth Pairing	Flashes Blue
Paired	Flashes Blue Slowly
Auxiliary Mode	Flashes Blue twice every 2 seconds
Talk Mode	Continuously flashes Blue
Charging	Solid Red light

CHARGING THE BLUETOOTH DEVICE

1. Connect the speaker's Micro USB socket with the power source's USB port with the provided charging cable. The Bluetooth indicator will show red to indicate the speaker is charging.
(Note: The Micro USB port is located on the back of the speaker.)
2. The Power Indicator will show red while the battery is charging. When a full charge has been achieved the LED will turn off.
(Note: A full charge will take 2-3 hours.)
3. Disconnect charging cable when finished. Do not leave charging cable inserted into the devices when not in use.

PAIRING / RECONNECTING THE DEVICE

1. Slide the switch on the bottom of the speaker into the "On" position. The speaker will enter searching / pairing / reconnect mode.
2. Now, turn on the Bluetooth function of your device.
3. Search for "NLCUBE" and select it to begin Bluetooth pairing.
(For first time pairing or pairing a new mobile device.)
4. The Speaker will reconnect automatically if your mobile phone has been paired previously.
(Note: Depending on the device's type and configuration, manual reconnection may be required each time.)
5. If pairing is successful, speaker will make a tone to confirm.
6. Slide the Power switch to the "Off" position to turn the unit off.
(Note: If you cannot search for the Speaker, this means the last device is reconnecting automatically. Choose to forget the speaker from your bluetooth menu and try to pair with the speaker again.)

CARE AND MAINTENANCE

- To clean the unit gently wipe with a soft, damp cloth.
- Keep this unit away from wet or damp surroundings. Exposure to such environments can damage the speaker and its ability to function properly.
- Do not tamper or open the device, doing so may result in damage and personal harm.

SPECIFICATIONS:

- Model No.: SP3062 MINI CUBE
- Driver Unit size: DIA 1.5"
- DC Power Input: 5V / 300mAH
- Bluetooth: A2DP v 1.2
- Output power: RMS 3W
- Frequency: 96Hz-20KHz

TROUBLE SHOOTING

No power

- Recharge your speaker using the micro USB cable. If the problem persists try using another micro USB cable

No Response From the Unit

- Ensure your bluetooth device has an A2DP profile
- Check if both devices are paired and connected.
- Restart the device and try to reconnect.

Bluetooth device will not reconnect with the Speaker

- From your Devices bluetooth menu select the "SP3062" speaker and choose "Forget". Now repeat the steps to pair the speaker.

Cannot find the devices name on the bluetooth menu

- Ensure the Bluetooth function is activated on your device.
- Ensure you have paired the unit with your Bluetooth device.

- Working distance: 30ft
(Distance may vary)
- Rechargeable Battery: 300 mAh, 1.5-2 hrs playback
- Power Supply: Lithium battery/USB charge

BACK

⚠ Warning:
Please read these safety warnings and cautions carefully to ensure your personal safety and prevent property damage.

Fire and Electric Shock Hazard

- Do not drop, disassemble, open, crush, bend, deform, puncture, shred, microwave, incinerate, paint, or insert foreign objects in to the speaker. Such actions could result in electric shock.
- Do not expose your speaker to extremely high or low temperatures it can cause malfunction.
- Do not leave your speaker in direct sunlight for extended periods of time.
- Do not leave your speaker near open flames such as cooking burners, candles, or fireplaces.
- Do not block any ventilation openings.

Fall Hazard

- Do not place the speaker on high surfaces such as shelves. During music playback the speaker may move which could cause the speaker to shift and fall off of the edge.

Warning:

- To reduce the risk of electric shock, do not remove cover (or back). Refer servicing to qualified service personnel.

CAUTION:

- Do not use abrasive cleaners to clean your speaker. It could cause scratches and damage.
- Do not bring your speaker in to contact with any sharp objects. This could cause scratches and damage.
- Do not insert anything into your speaker unless otherwise specified in the user instructions. This may damage the units internal components .
- Do not attempt to repair, modify, or disassemble your speaker yourself, it does not contain any user-serviceable components.
- Do not attempt to replace your speaker battery, it is built-in and is not changeable.
- Use only the manufacturer supplied charger to charge your speaker. Other chargers may look similar, but using them could result in electric shock and could damage your speaker.
- Observe all signs and displays that require an electrical device or RF radio product to be switched off in designated areas.
- Turn off your speaker prior to boarding an aircraft. Do not use the speaker inside an aircraft unless allowed by your airline.
- Dispose of the speaker and its battery in accordance with local regulations. Do not dispose of the battery with regular household waste.

1- This device may not cause harmful interference, and
2- This device must accept any interference received, including interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a

reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help or assistance.

This device complies with Part 15 of the FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:
1- This device may not cause harmful interference, and 2- This device must accept any interference received, including interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

IC/FCC Radiation Exposure Statement:
This equipment complies with IC/FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

IC/FCC exposition aux radiations:
Cet équipement est conforme avec IC/FCC les limites d'exposition aux rayonnements définies pour un environnement. Cet émetteur ne doit pas être co-localisé ou fonctionner en conjonction avec une autre antenne ou émetteur.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
